Correct Solutions

To Whom It May Concern:

Approximately 3 years ago, we approached Ryan Spillane (Managing Director), to review our current IT requirements. Ryan was highly recommended to us by an existing client who was using Correct Solutions services. After giving Ryan a brief run down of where we were at and where we would like to be, he came back with a detailed game plan on how to achieve our goals in an efficient and effective way.

We were so impressed by Ryan's feedback and enthusiasm; we decided to give Ryan and his team a go.

To this day we have no regrets; Correct has delivered all they have promised to and more. Their knowledge in the IT Industry is second to none. Our computer systems and networks have never been working better thanks to Correct.

Correct Solutions has demonstrated the ability to deliver projects efficiently and successfully. As this forms part of their outstanding ongoing service, we don't just consider Correct Solutions as an external supplier but as part of the ProCorp Team.

We would highly recommend Correct Solutions to manage your IT requirements.

Regards

Michael Everard
Director
